

**Master Bath Renovation**

*Dated builder-grade cabinets, tired counter top, sinks, and hardware, worn out shower doors, and old-fashioned floor tiles combined to make a bathroom less than memorable.*

**Challenge:** Update, upgrade, bring sophisticated flair to an ordinary room.

**Solution:** While plumbing—bath, shower, and toilet—stayed put, everything else was replaced. A frameless shower with rainforest showerhead, sleek faucets, and gorgeous new tile reinvigorated the tired shower. White walls became a deep, peaceful teal. Ultra-modern light fixtures, floating vanities, wall-mounted faucets, and large porcelain tiles all combined to transform this room.

**Option:** Three. Ordinary bathroom becomes extraordinary retreat, truly fit for the master of this home.

*After*
