

## **The Everything Room**

*This room needed to be an office, a music room, a rec room.*

*When staging a home, each room should have a distinct purpose. When redesigning, we work with the needs of our clients. This home had limited space and the client had many masters to serve.*

**Challenge:** Create an efficient and attractive space that suits everyone without looking cramped and cluttered. Organize and warm up the room.

**Solution:** Use zones—one for the office area and one for the kids. Weed out unnecessary items, organize the closet with shelves and bins, and finally, warm everything up by layering on curtains and a rug. After a few strategic moves, we were even able to add a work table to the office space.

**Option:** Two. Monarch Interior Solutions transformed this room by spending a little on shelving, bins, sheers, and an area rug. Mission accomplished.
